MINDLIFT STARTUP DOCUMENTATION

---

1. The Consolidated 18-Month Strategic Plan (Your "Business Plan")

This is the unified 3-phase plan, now incorporating your 7 new student-facing features into the development roadmap.

Phase 1: Foundation (Months 0-3) — "Formalize & Build MVP"

This phase is about transforming your project into a "company" and building the Minimum Viable Product (MVP) needed to sign your first pilot colleges.

1. Legal & Corporate Setup (CEO Priority #1)

- Action: Contact a Lawyer & Chartered Accountant (CA).
- Task 1: Register as a Private Limited (Pvt. Ltd.) company.
- Task 2: Draft Team Legal Agreements:
    - Founders' Agreement.
    - Equity Allocation (Set aside 10-20% ESOP pool).
    - Vesting Schedule (4-year vesting, 1-year cliff).
- Task 3: Get Financials in Order:
    - Open a company bank account.
    - Apply for company PAN, TAN, and GST Registration.

2. Product Enhancement (Tech Team Focus)

- Goal: Build the B2B/B2C MVP demo.
- Task 1: Build the Syllabridge "Accreditation Dashboard" (B2B Feature)
    - Features: CO-PO Mapping tools, NAAC/NBA report generation.
- Task 2: Build the MindLift "College Admin Portal" (B2B Feature)
    - Features: License management, "Learning Path" assignment (e.g., assign "React Path" to CSD 3rd Year), and class-level progress tracking.
- Task 3: Build the Student-Facing MVP (B2C Features - NEW)
    - Feature #5: Placement Tracker Dashboard: The student's homepage. Must show their assigned Learning Path, progress bars (Aptitude, Coding, Interview), and a "Readiness Score."
    - Feature #4: Company Shadow Tests (MVP): Build 2-3 "Shadow Tests" (e.g., TCS, Infosys, Generic) to prove the concept. Must provide instant feedback.
- Task 4: Integrate Syllabridge + MindLift
    - Features: Single Sign-On (SSO) and data linking (MindLift score appears on Syllabridge profile).

3. Sales & Marketing Prep (CEO's Focus)

- Task 1: Finalize the "Pilot Program" Offer.
    - The Offer: 100% free lifetime access to Syllabridge. A 2-year contract for MindLift at a 90% discount.
    - The "Ask": A formal testimonial and a case study.
- Task 2: Create Your Sales Toolkit.
    - A 5-slide pitch deck (see section 2 below).
    - A 1-page PDF brochure.
- Task 3: Build Your Target List.
    - Identify 20-30 colleges and find contact info for Principals, Deans, or HODs.

Phase 2: Go-to-Market (Months 4-9) — "Sell & Onboard Pilots"

This phase is 100% about sales, execution, and learning from your first users.

1. Sales & Onboarding (CEO's Focus)

- Task 1: Start "Dialing for Demos."
    - Pitch: "My name is Uday Kiran. We've built an academic platform that includes a free NAAC/NBA reporting module. I'd love to show it to your Dean for 15 minutes."
- Task 2: Conduct Demos. (Syllabridge NAAC -> MindLift Admin -> MindLift Student Dashboard).
- Task 3: Sign Your First 3-5 Pilot Colleges.

2. Product Refinement (Tech Team's Focus)

- Goal: Drive student engagement on the platform.
- Task 1: "White-Glove" Onboarding.
    - All-hands-on-deck support for your first pilot colleges.
- Task 2: Build Engagement Features (NEW)
    - Feature #3: Gamified Prep: Build the v1 of gamification (streaks, badges, leaderboards) to keep students hooked and completing courses.
    - Feature #1: AI-Personalized Roadmap (Beta): Use data from your first pilot students to build the first version of the personalized roadmap generator.

Phase 3: Refinement & Growth (Months 10-18) — "Scale"

This phase is about leveraging your initial success to build a scalable, revenue-generating business.

1. Business & Sales (CEO's Focus)

- Task 1: Gather Data & Build Case Studies (e.g., "70% of students at Y College completed a MindLift certification").
- Task 2: Refine Your Pricing. Move from "pilot discount" to a formal tier (e.g., ₹200 per student/year).
- Task 3: Scale Sales. Approach 50 more colleges with your new case studies.
- Task 4: Get Your First Full-Price Customers.

2. Product "Moat" Building (Tech Team's Focus)

- Goal: Build features that competitors cannot easily copy.
- Task 1: Build Scalable Community Features (NEW)
    - Feature #2: Real-Mentor System: Connect placed seniors from pilot colleges with junior students on the platform.
    - Feature #6: Community + Contests: Launch a social learning space and "college vs. college" mock battles.
- Task 2: Strategic Expansion (NEW)
    - Feature #7: Multi-Language Content: Begin development and content acquisition for regional languages (Telugu, Hindi) to unlock the next market tier.

Financial Plan: 18-Month Ultra-Lean "Sweat Equity" Budget

Cost Category	Description	Estimated 18-Month Cost (INR)
Infrastructure & Hosting	Cloud servers, databases, video streaming (Mux/Vimeo).	₹3,60,000 - ₹5,40,000
Sales, Marketing & Travel	CEO's travel to colleges, brochures, demo costs.	₹1,50,000
Legal & Operations	Company Registration, GST, Founder/Equity Agreements.	₹75,000
Content (MindLift)	Small payments/revenue-share for initial instructors.	₹50,000 - ₹1,00,000
Software & Tools	GitHub, Figma, etc. (Use free tiers where possible).	₹45,000

Cost Category	Description	Estimated 18-Month Cost (INR)
Contingency Fund (20%)	For unexpected costs. Do not skip this.	₹1,40,000
Total Estimated Fund		~ ₹8 Lakhs - ₹10 Lakhs

---

3. Phase 1 Product Requirements Document (PRD) (Your "Tech Blueprint")

This is the document for your tech team. This is what you build *right now*.

Document: PRD - Phase 1 MVP

Objective: To build the minimum viable product required to sign our first 3-5 pilot colleges.

Target Users: College Admin (Buyer), Student (User), Faculty (Enabler).

1. Feature: Syllabridge "Accreditation Dashboard"

- User Story (Faculty): "As a Faculty member, I want to map my Course Outcomes (COs) to Program Outcomes (POs) so I can generate my accreditation reports."
- Requirements:
    - Admin backend to define and lock Program Outcomes (POs) for the college.
    - Faculty dashboard to define Course Outcomes (COs) for their subjects.
    - A matrix/grid interface to map (e.g., check a box) which COs satisfy which POs.
    - A "Generate Report" button that exports this mapping data (by faculty, by department) into a pre-formatted .xls or .pdf.

2. Feature: MindLift "College Admin Portal"

- User Story (Admin): "As an Admin, I want to assign the 'React Developer Path' to all CSD 3rd-year students and see their overall progress."
- Requirements:
    - License Management: Bulk upload students via .csv (Name, Email, Student ID, Branch, Year). Assign/Revoke "MindLift" licenses.
    - Learning Path Creator: An interface to bundle existing courses (e.g., "JS Basics" + "React Advanced" + "React Mock Test") into a "Learning Path."
    - Assignment: Assign a "Learning Path" to a specific Branch, Year, or Section.
    - Progress Dashboard: A simple bar chart view (e.g., "CSD 3rd Year - 65% completed React Path").

3. Feature: Student "Placement Tracker Dashboard"

- User Story (Student): "As a Student, I want to log in and see exactly what I need to do to get ready for my dream company."
- Requirements:
    - Main View: Must display the "Learning Path" assigned by the college.
    - Visualization: Prominent progress bars (e.g., Aptitude: 40/100, Coding: 20/100, Interview Skills: 10/100).
    - Readiness Score: A single, gamified score (e.g., "650/1000 - Placement Ready").
    - Navigation: Clear links to "My Courses" and "My Shadow Tests."

4. Feature: "Company Shadow Tests" (MVP)

- User Story (Student): "As a Student, I want to practice the *actual* TCS/Infosys test format before the real interview."
- Requirements:
    - Build 3 test "templates" (e.g., "TCS", "Infosys", "Generic Service").
    - Each template must support multiple sections (e.g., Aptitude, Verbal, Coding MCQ, Live Coding).
    - Must be timed.
    - Must provide an instant, detailed score report (e.g., "You failed the Aptitude section but passed Coding").

5. Feature: System Integration (The "Glue")

- Requirement (SSO): A student must be able to log into Syllabridge (using their college ID) and click a "MindLift" button and be automatically logged in.
- Requirement (Data Link): The "Readiness Score" and "Certificates" from MindLift must be pulled via API and displayed on the student's main profile in Syllabridge.

Your Immediate 5-Step Action Plan (Checklist for Next Week):

1. Hold a Team Meeting: Formally present this *entire document* to your team. Get buy-in on the "sweat equity" model and the Phase 1 PRD.
2. Find a Lawyer & CA: Start the company registration. This is your top priority.
3. Create a Project Board: Create a Trello, Asana, or Jira board.
4. Assign Tasks:
    - Break down the "Phase 1 PRD" into specific tasks and assign them to your tech team.
    - You (CEO): Start building your target list of 20 colleges and drafting the "First Pitch Deck."
5. Set Up a Demo Environment: Create a clean, polished, bug-free version of your applications that you can use for sales demos.
